**Medical and Surgical**

**INSTITUTE.**

*** CONSULTATION AT THE CAS-ES, FREE

*** CURES GUARANTEED OR NO PAY REQUIRED

*** IN ALL CASES WHERE CONFIDENCE IS REQUIRED THE UTMOST SECRECY MAINTAINED

*The above rules, established by Dr. J. C. Young in 1850, and which have done so much to test to the reputation of this Institute, are still adhered to, affording those in need of medical aid, the certainty of cure and the utmost confidence.*

*There is nothing of so great importance to the sick as to know where to find a physician whose skill and humanity give the best assurance of proper and efficient treatment. The Doctor would respectfully call the attention of those of both sexes who are suffering or in trouble, to the invariable success that has marked the career of the Institute in the seventeen years of its existence.*

*It is unnecessary in this connection to enumerate all the complaints treated at the Institute, but the Doctor feels it his duty to call especial attention to that terrible scourge,*

*SEMINAL WEAKNESS,*

*That is sapping with its insidiousness the very life of its victims; as the treatment and cure of which the Institute has earned so enviable a reputation.*

### POLITICAL ITEMS

From the [illegible] reprint [illegible]

The anagram of the words Vote for Horatio Seymour is Forty-eight have mostly The conundrum on the other exactly nothing more or less.

The St. Louis *Democrat* says that Brick Pomeroy a recent speech in that city made Grant two hundred votes and wants him back to come again.

The *National Temperance Advocate* strongly favors Gen. Grant for President saying a little in the worst code of his habits after careful investigation.

Ohio is to have a new coat of arms. A contemporary suggests a negro being driven from the ballot box and a crowd of disfranchised residents bearing her colleges.

The Hon. J. W. Gordon of Indiana, one who of late years had cast a lot with the Democracy is unable to swallow the Seymour Blair prescription and says that he shall vote for Grant and Colfax.

Josiah Cohen and C. Magee of Pittsburgh published cards in the Pittsburgh *Commercial* denouncing the use of their names as vice Presidents at the ratification meeting on Monday. They both were for Grant and Colfax.

It is now confidently stated that Gen. John A. Dix now American Minister at Paris is one of the thousands of War Democrats who are refusing to support Seymour and Blair will heartily sustain Grant and Colfax.

In his address to the Soldiers and Sailors Convention General W. B. Franklin said that the Democratic party ought to nominate for the Presidency an unflattering and consistent friend of the soldiers. They did it of course.

The Democrats of Washington and Sunflower Counties, Miss. actually ran a nigger for the Senate. His name was Wm. T. Compash and he turns out to be a deserter from Company K, Thirty second United States Colored Infantry.

The Albany *Argus* boasted a short time since of the accession of Charles Francis Adams late minister to England to the Democratic party. Mr. Bowles telegraphs to the Springfield *Republican* that Mr. Adams left New York disgusted with the platform.

The Boston *Journal* says "A prominent member of the Democratic party said last night I have talked to over a hundred Democrats this afternoon and evening, and they all think as I do—that no honest man can vote for Seymour and no white man for Frank Blair."

The New York Democratic State Convention will probably be held about the 10th of August and John T. Hoffman and Henry C. Murphy are the most prominent candidates for the nomination for Governor. The chances are in favor of the former since Mr. Murphy has lost Potter Cagger one of his strongest supporters.

The Cincinnati *Commercial* says that Seymour's nomination after his repeated declinations calls to mind Corwin's observation at the nomination of Polk. After this no one is safe. A man goes to bed a respected citizen and he arises in the morning and finds himself a candidate of the Democratic party for the Presidency.

Full official returns from all the counties of Arizona have been received at the capital. They give Governor McCormick (Rep.) a majority of 626 over Rush (late of Colusa county) 1,650 over Adams and 471 over both being the largest majority ever given a candidate for delegate in the Territory. Another ground swell!

The Providence *Herald* (Democratic) finds comfort in the rejection of the Chief Justice by the Democratic National Convention in the fact that there will be questions arising in the Supreme Court which will make it of vital importance to the Democratic and Conservative party to have Judge Chase continue in the office which he now holds.

The Albany *Journal* says: There is no doubt of Governor Seymour's nomination for the Presidency after having pledged himself not to be a candidate reminds us of Mulligan and his wife. It is a bad world ye have. A drop of the crayther is doing harrum. Och hone, said Biddy. If ye taken the pledge but ye can mix a drink Teddy and force me to swally it."

The *Irish Republic* speaking of Banks bill for the protection of American citizens in foreign countries, which recently passed Congress says:

What Democracy has failed to do in fifty years Republicanism has done in seven. Let our people stand by the men who are true to liberty. Let them respond to the action of the Republican nominees for the next Presidency.

The ratification of the Constitutional Amendment by three-fourths of the States the admission of the Southern representatives to seats in Congress the passage of the bill reducing the army to a peace establ

JACKSONVILLE Aug 4th 1868

SOME FROSY REFLECTIONS

They who go as pioneers into a new country and labor patiently for its improvement and development who though beset with difficulties never lose faith in the future and who while working for the present feels that in founding a community and establishing it in prosperity and correct principles they are also working for all time to come, such men are our truest heroes To act this part well requires large faith broad aims, a catholicity of sentiments and principles and a patience satisfied to look at the aggregate results of the efforts of twenty years rather than a hopeless attempt to form a hasty judgment of success or failure, based on the limited observations and experiences of a day or a year To plant the seeds of a community and want for them to grow and bear fruit, calls for the exercise of all the faith and philosophy there is in man The highest exercise of this faith was manifested in the settlement of this western continent by our ancestors, two and a half centuries ago, and ever since, as rapidly as attempts have been made to establish new communities in the march across the continent, the same qualities have been called more or less into play

There are said to be evidences that the American continent was first peopled by a general movement from north to south This earliest American migration seems to have been impelled by a fixed law which in the early ages controlled the movements and guided the destiny of the race The same phenomenon was witnessed in the great migration from the east of Asia to the western shores of Europe, fifteen hundred years ago Movements like these belong to a certain stage or period in the progress of mankind But the last "American migration" is something totally different. The great movement for the settlement and subjection of the American continent, which has been making for the last two hundred years, is directed by ideas. It does not spring from obedience to a blind instinct, but is an effort of modern civilization.

The men who laid the foundations of a community in Oregon, who have labored to give it stability and character, who conceived and have been identified with all the progress the State has made both in material prosperity and moral ideas, have possessed in large degree this modern spirit, and have signalized it by patient working. The disadvantages they have been compelled to meet have been many, but the most considerable of them have been overcome. As a community we have now reached a point whence we must go forward with greatly accelerated speed. Let no casual observer assert that our people are indolent and indisposed to exert themselves to build up the general prosperity They have done what they could Let the circumstances be considered, the sparseness of our population and the extent of country over which it is spread, our remoteness of situation, the difficulty of communicating with the world at large as well as with each other, the cost in time and money of getting here, and the fact that other portions of the country, as Kansas, Iowa and Minnesota, lying within comparatively easy reach of the increasing population of the East, have absorbed most of the emigration towards the West —let all these things be considered, and it must be admitted that the advancement which Oregon has made, has been, under the circumstances, quite surprising.

The conviction is growing that better things are immediately before us The Pacific coast is quickening with new energy, and Oregon feels the impulse. The Pacific railroad will soon begin to pour a population across the continent, and Oregon shall be ready to meet and receive the incoming tide Naturally, the people of the Southern part of the State want a chance with the rest The scheme in which they take a most lively interest is the proposition for

A BRANCH RAILROAD

forming a junction with the Central Pacific, crossing the Cascade mountains in the vicinity of the California line traversing Rogue river and Umpqua valleys, and forming a connection with the Willamet This is the proposition submitted in Mallory's bill asking for a subsidy, now before Congress, and recent information from Washington, received in this quarter, inspires a hope here of its passage at an early period of the next session It is claimed that the Cascade mountains may be crossed by this route as easily, if not more easily than by the Middle Fork of the Willamet, and certainly if the thing is practicable the connection should be made by a route which will accommodate Southern Oregon A surveying party is now out in the Cascade mountains east of this place with a design of making more thorough observations of their nature than were ever made before It is proposed to demonstrate the fact this summer that the mountains in this quarter are actually pervious to a railroad Another great problem to be demonstrated is the existence of an easier route than has yet been surveyed through the hills and mountains between the Umpqua and Rogue river valleys It is confidently believed that a better route can be found than that traced in the United States Railroad Surveys

MATTERS ABOUT JACKSONVILLE

This place seems to be steadily flourishing and presents an appearance of freshness and thrift not equalled by many of our Oregon towns Stocks of merchandise here are certainly larger and better than any to be found south of Salem Imported goods of every description, including agricultural and mining implements, are hauled from Crescent City (Cal), a distance of one hundred and twenty miles The road is a mountainous one, and every pound of freight hauled over it to Jacksonville costs three and a half cents This is the price at present, though it is sometimes higher From San Francisco to Crescent City freight costs ten dollars per ton so that by the time goods reach here they have paid a tariff of eighty dollars on the ton A people who have to struggle with such disadvantage must have many circumstances in their favor to counterbalance them Those the people of Jackson county seem to possess, for it is certain that no portion of the State shows better evidences of prosperity

THE GOLD PRODUCT

The southern part of the State still derives great advantage from its mines of gold These extend over a large section and though few are as extensive still some one and the aggregate amount of gold product from here is very considerable This keeps the circulating medium in this quarter of the State comparatively abundant Of course many miners are entirely worked out but in many other places work is suspended for want of means to get water but when water can be obtained the miners are still delving away Claims are working over many old diggings and along the beds of Rogue river those people may be seen in numerous places employing their patient industry in washing out the gold which white labor has neglected as too small pay In some places they have large wheels constructed driven by the current for raising water for their sluices It will be many years before the placer mines of Southern Oregon are exhausted and after a while many claims will be worked with profit which will not now afford sufficient pay It is expected also that the quartz interests of the Southern counties will eventually have great importance

FARM PRODUCTS

For the products of agriculture there is a fair market in Jacksonville and quite as good in fact as in any part of the State The supply required by the miners is a considerable item For some time past the Government demand for flour and grain at Fort Klamath has called for no small portion of the products of this valley Flour is also sent from here into Northern California Some of the best improved farms in Oregon lie in Jackson county, and their owners are doing fully as well as any farmers in Willamet

The harvest is about ended here and the yield is large On the whole this is probably the most productive season Oregon has ever known

HOT WEATHER

The way the temperature rises here in an August afternoon is decidedly uncomfortable to contemplate yet it is not so hot now by several degrees as it was some days ago It is not an unusual thing for the mercury to rise above 100deg and last Sunday it was 110 in the shade in this town In the coolest place that could be found the thermometer indicated 102 deg Yet it is observable that the heat seems less oppressive in these parts than in many others where the thermometer indicates a temperature lower by ten or fifteen degrees. The air is less sultry, and seems less close and stagnant Its elasticity is such that the hottest days do not produce the feebleness and languor which are experienced in many localities.

A THRIVING VILLAGE

Is Ashland, sixteen miles from Jacksonville, on the stage road. Quite a number of buildings are going up at that place this summer, and the woolen mill, which is expected to be an interest of great value to this part of the State, will, ere long, be in operation A portion of the machinery has already arrived and the rest will come without delay The building is now ready for the machinery The manufacture in Southern Oregon of a large and important class of goods which have heretofore been imported at high prices will be a great point gained

POLITICS

The disgust which prevails among the "Democracy" on account of the action of the New York Convention is painful to see Of course all, or nearly all, of them "can eat crow" and vote for Seymour and Blair, and nine-tenths of these would as soon be one as the other. Every Republican who meets a Democrat is loud in his praises of Seymour's gold-paying policy and Frank Blair's war record. Blair is especially commended for his prompt action in clearing Missouri of "Democrats," for firing upon a promiscuous crowd in St Louis in 1861 for offering a resolution in Congress to expel Clark, a Democratic member from Missouri, for the conflagrations of rebel property which he caused when "marching through Georgia," etc, etc All these things are wormwood to the 'unterrified,' and many are the deep drawn d—ns which escape the barrier of their teeth But the dilatability of the Democratic œsophagus is wonderful, and before the close of the campaign most of them will be seen devouring "crow" with astonishing voracity But there are some who cannot do it, and the Republicans of this county have assurances that quite a number who voted Democratic in June will vote for Grant and Colfax

The Conviction

The telegraphic dispatches this morning give information of a most deplorable state of things in Louisiana It seems from official statements that a perfect reign of terror has begun and that it has become necessary to invoke the aid of the National government to protect peaceable and unoffending citizens from slaughter The fiendish spirit of rebellion and lawlessness is again awake and rampant The rebels conquered once by Gen Grant have become again warmed into life through the manipulations of President Johnson and the Democracy of the North The result was to have been expected Johnson had used the whole power of his administration to convince them that they were yet to succeed The Democracy had assured them of their active sympathy and aid The Democratic National Convention lately promised them that the State governments under which they had been compelled into partial good behavior should be dispersed upon the accession of the Democratic party to power They have been assured that the election of Seymour and Blair is certain Acting upon all these assurances it seems they have concluded not to await the election but to take matters into their own hands and to drive out the Union people or kill them This state of things is exactly what lies before a thousand times foretold as the result of a Democratic triumph and it comes even in advance upon the more belief among the rebels that the Democracy will succeed three months hence

When the news of the Democratic nominations was received at Washington the Blair letter was, of course the theme of very general comment One Democratic member of Congress from Pennsylvania said Blair was a d—d fool for writing it and a greater d—d fool for printing it The Democratic newspapers evidently think so, to judge from their anxiety to make it appear that what Blair wrote he did not mean and that he meant what he did not write

In the character of Mother of the Presidents' New York has never been a success In the last sixty years she has presented no less than six of her babes for the distinguished honor but only one was ever baptized at the Presidential font Martin Van Buren in 1836 Seymour is New York's sixth infant, and six is not a lucky number

The Mormons must have had a delightful time during the late heated term The *Telegraph* says the thermometer stood at 110 degrees in the shade The saints must have had some suspicions, about that time that they had got into the hot acre of kingdom come

Terrible Condition of things in Louisiana—Blair a Democratic Revolution already Begun

WASHINGTON Aug 6—Governor Warmouth's official requisition for force to secure order in Louisiana was presented to the President yesterday by Col Deane of the Governor's staff Gov Warmouth presented various letters from citizens and officers setting forth the terrible outrages daily being perpetrated in all parts of the State He says that in many parishes there exists no protection for citizens in the courts and that men are shot down in the roads and at their homes without any steps being taken to bring the offenders to justice. The Judge of the Twelfth Judicial District has refused to go to the parish of Franklin without a force is sent to protect them The sheriff of another parish a Democrat, has resigned confessing his inability to make arrests. Prominent Union men in Paris write that their homes are sent by desperadoes and their lives then far have been saved by the arrival of men who volunteered to guard them Mr Hodspeth, the District Attorney of the Eighth District, whose letter is enclosed, says men women and children have recently been murdered in the parish of St Landry by bands of armed men who remain unmolested The Governor has no doubt that one hundred and fifty men have been murdered in Louisiana during the last month and a half.

It seems to be the settled determination by rebels either to kill or drive away Union white men and leading colored men, so as to be able to terrify the masses of colored people into voting as they dictate In conclusion, the Governor says he believes a bloody revolution to be meditated, and asks for two regiments of cavalry, a regiment of infantry and a battery of artillery, to enable him to suppress violence, arrest criminals and protect officers. He believes a few examples of condign punishment would secure the peace of the State as soon as the political campaign is over.

The San Jose *Patriot*, a Democratic paper that bolted Seymour because of his secession proclivities, says "The election of Grant and Colfax is as certain as any future event can be"

The New York *Herald* says "Tom Campbell, (delegate to the New York Soldiers' Convention), goes back to his farm in Ohio, and declares that Seymour won't carry a State northwest of Ohio

The *Herald* publishes a denial of the silly story started by somebody to the effect that the family of Horatio Seymour has a taint of insanity, and closes by saying "We see that both the *Bee* and the *B Belge* endorse the refutation of this disgraceful slander, but it would be too much to expect from the OREGONIAN a like act of honesty and decency

The OREGONIAN has given no publicity to the story concerning insanity in Gov Seymour's family, unless it may have been incidentally mentioned in clippings from Eastern newspapers that such a story was in circulation and we do not remember that it has ever been alluded to even in that manner So far as we know, the *Herald* is the first newspaper in Oregon to broach the subject We do not know whether the story of Seymour's inability to insanity is well or ill grounded and it is certainly to be deplored a matter to discuss except with absolute congnizance But we know positively that he has such an hereditary taint we could not possibly feel justified in parading the fact for the purpose of making political capital Seymour is responsible for political sins enough without being called upon to answer for an intellectual misfortune We have to do with the man as regards as he himself has made it and nothing whatever with the wife from the evidence may have existed upon him and we should probably have never felt like alluding to this side of the bad taste of the *Herald* in parading it and leveling vituperation at Seymour on the OREGONIAN with the cruel burden of the story The *Herald* is certainly hard up for material when it drags in its childish lies in such shape to make out a case where there had been none before

Sewing Machines at the Paris Exposition.—There seems to be considerable contradiction among the successful exhibitors at the awards made in this department The recipients of the two gold medals severally advertise that theirs is the only gold medal, thus contradicting each other while all the other prize holders concur that no gold medal was awarded to any Sewing Machine whatever Happily it is not our duty to decide this knotty question but the assertion of the Grover and Baker Sewing Machine have received the very highest prize—a gold medal—their representative in Paris having been decorated by the Emperor with the Cross of the Legion of Honor

We find the above to one of our P. [illegible] and transfer it to our columns with [illegible] It is gratifying to find that the Grover & Baker Machine, which stands so high at home, should also receive the highest honors abroad When it is remembered that one thousand Gold Medals were awarded at the Exposition, and only one hundred and fifty decorations it will be seen that the Cross of the Legion of Honor was considered by the Judges as a much higher award of merit than the Gold Medal No other Sewing Machine at the Exposition received this distinction showing that, in the opinion of His Imperial Majesty, and the Judges, no other was equally deserving This award places the Grover & Baker Machine first in order on the official catalogue of the Exposition, as it is first in the estimation of the public on both sides of the Atlantic CURRIER & Co, are Agents for these Machines No 103 Front st

The Poisons of the Day.—The late temperance investigations in Massachusetts have thrown a flood of light on the horrible abuses of the liquor trade and have at the same time demonstrated the absolute necessity for unadulterated diffusive stimulants for medicinal purposes. Clergymen of the highest standing, men of the highest rank in science, and philanthropists, who are above the reach of prejudice, have testified not only to the pernicious effects of the adulterated liquors of commerce, but also to the efficacy of uncontaminated alcoholic tonics as remedial and restorative agents

First on the list of this class of preparations, best known and most extensively used of all the stomachics of the day, stands HOSTETTER'S STOMACH BITTERS This specific is the only representative of that absolutely pure article which eminent divines, chemists, physicians and social economists in New England have just declared not to be a proper subject for prohibitory legislation The faculty proclaims by the mouths of its professors that a stimulant of this character is a medical necessity HOSTETTER'S BITTERS satisfies all the requirements of science. Its alcoholic principle is free from the irritating constituents which analysis detects in even the best imported liquors, and the vegetable extracts with which it is medicated are among the best antidotes and restoratives that botanical science, in its wide wide research, has yet discovered. It is an indubitable fact that some constitutions and habits of body demand stimulation and for all such a stimulant which combines anti bilious and alight by aperient properties with its tonic virtues is manifestly desirable

### THE WEEKLY OREGONIAN.

THE WEEKLY ORE[illegible] contains the latest telegraphic news from the East and California [illegible] that is not to be appearing in THE DAILY ORE[illegible] Valuable matter will be found in the Miner, and the most [illegible] is carefully published by any paper in the State.

The average amount of reading matter in the WEEKLY OREGONIAN is double that published by any other journal in Oregon, and in its particulars of Commercial statistics and the Markets we think it makes it the most reliable, more especially in matters pertaining to Oregon interests.

☞ Single copy for [illegible] cents or $3 00 per year. Any part of the United States, or British Colonies.

FROM VANCOUVER.—The *Register* gives us the subjoined news items from Vancouver. A Band of Hope Society has been organized at Vancouver. Its object is to stop all profanity the use of tobacco and ardent spirits, by pledging its members to discontinue these practices.

Edward O'Keane has been appointed Street Commissioner. A number of the officers of the garrison are reported to be [illegible] Salmon Creek. Mr Wood [illegible] and made sad [illegible] with the fishy tribe. The trip is said to have been [illegible] of pleasing incidents and the day's sport much [illegible]

The [illegible] commenced suit in the U. S. District Court for $10,000 damages. The injuries alleged to have been sustained by reason of a fall from the sidewalk in front of the premises of [illegible] Church Street & Cook are attorneys for plaintiff. Master Louis Pax [illegible] on Wednesday from Hon A. Chambers with [illegible] of his appointment as Cadet to the Military Academy at West Point. He is ordered to report at the Cadet [illegible] on the 1st and 20th of June 1869. This appointment gives general satisfaction. The Bishop elect of the Anglican Province of Columbia will open his Collegiate Seminary with [illegible] on Monday, September 15th. The services of a competent board of instructors [illegible] and is proved [illegible] for teaching. The demand for [illegible] in the harvest fields laborers are very scarce. Much difficulty was experienced in securing thirty men to work on the fortifications at the mouth of the Columbia. The steamer [illegible] is running at full speed, filling a bill of 100,000 ft for McCracken, Merrill & Co., designed for shipment to the Sandwich Islands. There are twenty nine persons in Clarke county whose incomes exceed one thousand dollars, each. The [illegible] wheat is being gathered in by the farmers. The [illegible] of the wheat is plump and beautiful and has escaped without the slightest damage from any source. The wet weather the last of May and the early part of June makes the grass crop one of unusual abundance. Generally speaking throughout [illegible] their early promise so that we may safely congratulate our agricultural friends upon [illegible] a bountiful harvest.

OREGON CITY ITEMS.—We collect the following items of news from the *Enterprise*. Capt Pease has perfected arrangements for furnishing the city water for the purposes of extinguishing fires. The reservoir has been enlarged, the sheet iron pipes taken up, and their places supplied by cast iron ones. It is said has fairly commenced in Clackamas county. The yield of grain promises to be very heavy. The editor of the *Enterprise* has in his office specimens of this year's growth of wheat and oats which are said to be [illegible] an average of the crops in the county, and they are certainly a very high standard. [illegible] On Tuesday night last, two scamps [illegible] part of the bridge on the road to Cottingsville, thereby endangering the lives of passers by. Some persons [illegible] that way after night made a very narrow [illegible] Can any one tell? The County Court will receive proposals for the construction of a bridge across the Herdman Wright bridge, across the [illegible] at Gribble's Ford. Bidders are asked to submit plans and specifications. For particulars see bills. The press upon which the OREGONIAN was first issued, is now at Seattle, W. T., a venerable relic of the art, useful in its day.....The *Success* will make her trial trip to-day.

BOYS OF PORTLAND.—In passing along the streets of Portland evening or night time, one cannot fail to observe the great number of boys who may be seen roving about the city in gangs of five to ten. The boys between the ages of six and fifteen years are permitted by their parents to leave home at night and seek such society as they think proper, and it is no wonder that we have to record so many criminal proceedings in which they are parties. No parent can do his or her child a greater injustice, or place him in circumstances of greater danger, than to allow him to roam abroad on the streets at night, or at all times through the day. No longer ago than to-day, we saw a number of children, boys and girls, upon one of the wharves in the city, playing and using [illegible] the most profane and obscene language we have heard in a long time. It is the duty of parents to see that their children are protected from these evil influences, and unless this duty is attended to, we shall be [illegible] reminded of the neglect by the increase of crime. The long summer vacations in our schools seem to be taken advantage of, by these juveniles to accumulate as much [illegible] and run about as wild as possible.

COUNTY COURT.—The Board of County Commissioners met yesterday. Considerable business was transacted, of which the following is the most important:

Allowed the bill of Coroner for holding inquest on the body of Hugh Donnelly for $58 00, disallowed; also that bill of same for inquest on body of Albert Smith for $58 00, disallowed.

Allowed C. C. Gibbs, Prosecuting Attorney in State cases in Recorder and Justices of the Peace for $147 50.

Allowed Avery allowed $70 for burials.

Ordered Allen, for work on pauper farm, $51 50, allowed.

Ordered P. Lent, Supervisor of Road District No 20 [illegible] bill for building bridge across Johnson creek, $60 in addition to lumber, total, $121 00.

Allowed A. Jacobi for $58 00. All allowed except $15, which [illegible] until next term.

PASSENGERS.—The following is the list of passengers for San Francisco, per steamship *John L Stephens*, [illegible] o'clock yesterday afternoon: M Davey, Florence Whitaker, L H Lewis, D Freidlandrich, L Barnes, [illegible] Geo H Clark, D Simon, Jacob Meyer, Geo [illegible] and wife, Miss Lizzie Daly, D Matthews, W A Young, [illegible] Upton, Jacob Leonard, W E Blossom, [illegible] Hill, U S A, Col J McAllister, U S A; Jas A [illegible] R M Lattenson, E W Hodgkinson, P Gumbiner, [illegible] and child, M Gilbert, Mrs J G Cessel, wife and three children, Col W G West W F [illegible] N S Coon, Pacific Union Express Co's [illegible] and nine in the steerage.

[illegible]—On day before yesterday two ladies living up town somewhere had a slight disagreement, about [illegible] done by one for the other. The dispute, as one of the [illegible] testified, was very "longuey," and from the war of words they proceeded to more violent [illegible] The one refused to pay, and the other tried to obtain possession of the clothes, but were able [illegible] as her property she received a dun to the [illegible] a slight slap on the face, and the result was an [illegible] Rear. Work's Court, by the State of Oregon [illegible] the slapper. A jury was called, and after a trial in which Parrish appeared for the State and Caples for the defendant, the jury returned a verdict of not guilty, on the ground that the defendant was entitled to the possession of the goods by virtue of a lien for the washing.

BOWS.—Nearly all manufactured goods are [illegible] by coming down in prices to the standards ruling [illegible] the war. For instance, hats of fine texture which [illegible] four cost five dollars can now be bought for three and a half and four dollars; four dollar hats are now down to two and a half, and so on through all the goods. For proof of this, call at Mesnedorffer's hat emporium and you can get your pick from an almost endless variety of new and tasteful styles, for about sixty per cent of what [illegible] qualities cost last year.

HARVEST HANDS.—From different sections of the country we learn that laborers to assist in gathering in the bumper crops of wheat and oats, are in great demand. The [illegible] of land sown last autumn and spring has, from [illegible] produced a beautiful yield. The weather for [illegible] and thus far, for harvesting, has been delightful. [illegible] hands to complete the harvest now fairly commenced, can be obtained, there is no doubt the grain crops of Oregon for the year 1868 will be larger than ever before.

TIME OF MEETING.—The Annual Conference of the M. E. Church will meet at Salem on next Wednesday, Aug 11th.....The Washington County Fair near Hillsboro on the 15th of September next. The Supreme Court meets on the first Monday, and the Legislature on the second Monday in September. The Annual Oregon State Fair will begin on the 29th day of September and continue six days.

BOWLING.—Mr McCann a next regular semi monthly supper will be given next Tuesday evening, the 11th inst, at his [illegible] dancing hall on First street between Taylor and Yamhill. Strict care will be taken to exclude all persons of doubtful reputation as Mr McCann intends to make these occasions [illegible] of refined and pleasing amusement to his patrons.

OREGON PRODUCE.—During the first six months of this year, there were shipped to San Francisco from this port the following amount of freights: [illegible] of flour, 54,971 centals of wheat, 17,911 sks oats, 1 120 bags apples, 329 bbls and 4 cs [illegible] of bbls dried apples, 2 258 packages bacon and hams, 7 4 kegs lard, 2 574 bbls of beef and pork, 1 128 bbls [illegible] half bbls and 1 [illegible] cases salmon.

A WORTHY CAUSE.—We learn that Peter Burke intends to solicit our citizens for a [illegible] Mr Dawson the man who lost one of his legs in saving [illegible] his companion from death by freezing. It is to be truly said that Mr Dawson is worthy of help in any person who will attempt him any assistance.

MARKETS.—Our retail markets are well supplied with every kind of fruit and vegetable in season. Green apples [illegible] are in great abundance. A great quantity of California vegetables arrived by the last steamer.

BONDS FILED.—The Coroner, Dr. [illegible] W Brown, filed his bonds in the Clerk's office for this county on yesterday. Amount, $5,000; Sureties, Wm McMillan and [illegible] H. Bennett.

DISORDERLY.—At a late hour last night a [illegible] man named Smith raised a row with the inmates and was captured by the police and locked up.

TO RUN.—The steamer Success lately built at Canemah by Capt. Baughman, will begin her regular trips on the upper Willamette next Monday.

WILLAMETTE FREIGHTS.—The boats from Oregon City yesterday brought down 200 gunnies wheat, 4 bales woolen goods and 7 rolls leather.

RELIGIOUS SERVICES.—Services will be held in the Congregation of Christ, corner Second and Jefferson sts at 11 morning at 10½ A M.

U S DISTRICT COURT—IN PROBATE.—There will be a session this morning at 10 o clock. Some important decisions will be rendered.

TO SAIL.—The steamship *John L Stephens* sails for San Francisco at six o'clock this morning.

A WONDER.—The winter [illegible] wonders that have ever visited this city since the days of which we think is the Hoodlum Rooster that is now on exhibition in the Old Pine Hall for a [illegible] only.

PORTLAND, Ogn, July 28, 1868
As there are a great many people sick and dying this season called Cholera Morbus I would call attention to the Chinese Doctor Jim. Having eaten green fruit I was taken very bad with the above disease and lay here ill for four hours, when Dr Jim was called at 4 in the 20 minutes after he gave me the first dose of medicine I recovered and was well. I believe that there is no other Doctor on the Pacific coast that could have relieved me as quick as Dr Jim did. M W MORGAN

The undersigned, who has always enjoyed public confidence for the excellent quality of his Coffee, neglects nothing to justify the good name acquired by his productions the sale of which daily increases. The acknowledged superiority of his merchandise which commands here and in the markets of the Isle for a relatively higher price, excites the cupidity of some manufacturers and every day he sees increasing the number of those who by counterfeit or imitation of his mark seek to deceive the public, relying upon them their inferior production for the genuine G. VENARD CHARTRES COFFEE. This fraud cannot succeed long after a trial but the address the favorable opinion of its consumers, the very flattering though unwilling testimony of the counterfeiters. Nevertheless buyers should be forewarned and placed on their guard against this practice.

NARROW-MINDED MEN.—It is the fashion to speak contemptuously of men whose ideas and objects are limited to narrow boundaries, within which they are content to pursue the even tenor of their way, knowing and caring nothing for what may lie beyond. The fashion is a bad one. Such men are eminently useful. Society would be a failure were it without them. Even a nation of such plodders would be more likely to prosper than a nation of "intellectual giants." The latter, mindful man knows the way they should go, but your narrow minded men, with less head and more hand, make the roads that connect the march in the right direction practicable. To the philosopher, deep in the mysteries of science, the farmer, whose thoughts are exclusively devoted to his business and crops, may possibly seem a very insignificant being. Yet if husbandry did not feed the world, the world would not have much stomach for philosophy. Agricultural chemistry may point out ways to enrich the soil and make ten blades of grass grow where one grew before, but it is only through the cultivator of the earth that agricultural chemistry can be applied and rendered useful. Not, perhaps because the discovery of a new plan for preventing the exhaustion of the soil was a grand development in science, would the man of acres adopt it. He might possibly have no sympathy with the enthusiasm of the discoverer. But show him that it will double the value of his farm, and we warrant he will promptly approve and accept it. Thus, to narrow-mindedness—or, in other words, his keen sense of his own and his family's interest—become the handmaid of science, and the unspeculative utilitarian the best ally of genius. The prejudice that exists against narrow minded men is not well founded. Their knowledge, though limited, is generally precise, and much may be learned of them by men of more comprehensive intellects. Without them the greatest of mankind would be a cipher—a Cæsar without legionaries, and Alexander with out a phalanx, a head without hands.

A rogue asked charity on pretence of being dumb. A lady having asked him with equal simplicity and humanity, how long he had been dumb? he was thrown off his guard, and answered "From birth, madam!" "Poor fellow!" said the lady, and she gave him a dollar.

An enterprising quack has contrived to extract from sausages a powerful tonic, which he says contains the whole strength of the original hark. He calls it "Sulphate of Canine." He anticipates a great popularity for it.

The Mormon problem is locked: Paris fashions are finding a footprint in Utah, and every Elder will be ruined in six months. Think of one man dressing twenty women!

## FINANCE AND COMMERCE.

WEEKLY REVIEW.

PORTLAND, August 7, 1868.

Our [illegible] New York quote gold 147½@148, and still finding [illegible] hands, closing each day for the past week a little higher than the preceding. San Francisco legal tender quotations 70@70½.

Wheat—The market is given as very firm and holders asking higher rates, closing at $2 70@2 85 against $2 60@2 70 a week ago. The daily San Francisco reports average 20,000 to 25,000 sacks purchased to arrive. Prices paid ranging from $1 50@1 80 for common to extra choice for milling purposes. The new crop is just beginning to be brought in in small lots.

Flour is in fair demand—San Francisco prices from $10 @10 27. Some 4,000 bbls changed hands at these rates last week. Shipping qualities selling at a slight discount. The Eagle market in Portland is not very active. The discount is a little greater than the receipts of the past week show the supply to have been large. The old crop of wheat is nearly ground and but a small quantity of the new is yet threshed. A small lot received on the 3d sold at 80 cents per bushel. But little change, if any, noted in oats and barley.

Bran received in small lots has sold readily at the [illegible] noted.

The *John L. Stephens* arrived Tuesday evening with a full cargo to our merchants, who are generally satisfied with the business of the week. Orders are coming in from the interior, and the indications of the fall trade are good.

*The Occident*, now loading, carries a partial cargo from here and will complete it at Eagle.

*The Zephyr* arrived on Tuesday with a fair cargo, which [illegible] to that of the *Stephens* has made our city wear quite a [illegible] appearance this week, and though [illegible] ally, ruin about as at last quotations, trade is [illegible] brisker.

We [illegible] the following rates of freighting to the different camps east of the Cascades, from John R. Foster & Co., of Umatilla, [illegible] date of August 4, 1868, the prices having advanced [illegible]

Ox teams, to Owyhee, 8c, legal tenders at 76.
Mule teams, to Owyhee, 6½c, legal tenders at 75.
Ox teams, to Idaho City, etc., legal tenders at 75.
Mule teams, to Idaho City, 4½c, dust at $16 ₱ oz.
Ox teams, to Boise City, 4½c, legal tenders at 75.
Mule teams, to Boise City, 3c, legal tenders at 75.
Mule and horse teams to Baker and Auburn cities, 3c, dust at current rates.
La Grande to Union 2½c, dust at current rates.

The present advance in freights is caused by a number of our largest teams having loaded with grain and flour for some of the Government forts. The receipt of freight for the past week has been quite light, and we think there is enough transportation on hand to keep rates from advancing above present quotations.

### Weekly Retail Family Market.

PORTLAND, August 7, 1868.

Fruits and vegetables are daily received in considerable quantities, and are offering at moderate rates. Green corn is abundant. A large supply of California fruits and vegetables of all the varieties in season arrived by the *John L. Stephens*. The first sweet potatoes of the season are received, but only in small quantities and of an inferior quality. The supply of butter and eggs in the retail market during the week has been small, and these articles command a good price and find ready sale. The rise in hams, noted last week, seems to have extended only to the limits of our retailing business, and was, likely, caused by a failure of the usual amount of receipts of that article. In short, the grocery and produce retail dealers are well supplied and are doing well.

TAKE AYER'S PILLS for all the purposes of a purgative, for Constipation, Indigestion, Headache and Liver Complaint. By universal accord, they are the best of all purgatives for family use.

BOOTHING AND BRACING.—There is no preparation in existence which has such a soothing effect in cases of nervous excitement as

DR. HOSTETTER'S STOMACH BITTERS.

Although the fame of this renowned invigorant rests mainly on its astonishing cures of Dyspepsia, Liver Complaint and intestinal disorders, it is equally efficacious in nervous complaints. Thousands of ladies resort to it as a remedy for hysteria, fluttering of the heart, nervous headache, vertigo, general debility and all peculiar disturbances and derangements to which, as a sex, they are subject. It cheers and lightens the depressed mental powers as well as strengthens the body, and its use is never followed by any unpleasant reaction. Sold by all Druggists and dealers everywhere.

To all whom it may concern:—I hereby give notice that the so-called "Shipley's Pacific Turbine Water Wheel" is a direct infringement and copy of the "James Leffel's Double American Double Turbine Water Wheel," and its manufacture and use is hereby prohibited. Any person or persons making, constructing or vending said Water Wheels make themselves liable to heavy damages and penalties. Parties only selling will take notice, for I shall prosecute said infringements to the utmost extent of the law.
That all may know I mean what I say, and am not playing "bluff," I give the following extract from a legal opinion on this subject from one of the most eminent Patent Attorneys in the United States.
WASHINGTON, D. C., April 17, 1868
"MR. A. MYERS—In accordance with your request, we have examined the patents of Shipley on Water Wheels, and are clearly of the opinion that they both infringe the Leffel's patents. In fact Shipley's Wheels become the upper and lower rims of buckets precisely as Leffel's do, each in this he clearly infringes. The fact that Shipley has applied inside rims of buckets in addition as those used by Leffel, does not relieve him from the consequences of infringement at all. He has no right to use these rims of buckets, whether alone or with a third, or any other interest of them added. It is a clear infringement. Respectfully yours,
DODGE & MUNN
I hereby give notice that I will prosecute every infringement on my Patents, whether it is the maker, user, buyer or seller. Every infringement, whether our claims are used in whole or in part, will be prosecuted.
A. MYERS.
